Eleventh Anniversary of Organized Effort to Save Souls.

There Is Need of Funds for Charity and Purchase of the Building Now Occupied by It.

The eleventh anniversary of the Central Union Mission was celebrated yesterday by two meetings, both full of Christian love

The first was at the Mission building. No. 622 Louisiana avenue, at 3 p. m., the second at Mount Vernon Place Methodist Church at 7:30 p. m. Well-known pasters took part in both exercises. In discussing "Legislation and Petition" Mrs. M. B. Ellis, national superintendent of New Jersey, strongly favored legislation looking to a higher age of consent. "I believe," she said, "we should be a unit throughout the States in pressing this measure, antil in every State this relic of barbarism may be virtually killed by being raised to twenty-one years."

"I would suggest that as far as practicable, we try to be united in our aims toward the betterment of laws, especially those concerning women as factory inspectors; women as physicians in hospitals and insure asylums, trustees in State institutions, police matrons, seats provided for saleswomen and proper retiring rooms."

"The Franchise of Women" was the subject of a report presented by Mrs. Louise C. Purington, M. D., of Dorchester, Mass. The report dealt with the progress of the movement in the union by sections. Prince Oscar's Birthday Gift. The little German princes, as is well known, have an English governess, to whom they are warmly attached. The governess birthday occurred recently, and not only the emperor and empress made her presents but the young princes also tried to offer their teacher some special pleasure. The gov-erness noticed among the gifts a plain little

paper box.
"What is this?" she asked, in surprise, taking it in her hand.
Seven-year-old Prince Oscar drew himself

up proudly.
"That's from me," he replied.
"But it is empty," said the teacher.
"Yes, it's empty now," answered the prince, "but to morrow papa is going to pull out my first tooth, and the box is meant for that; I'm going to give it to you."

The next day, the little fellow, beaming with joy, really did bring the tooth to the governess, and she now wears it as a charm on the breaker. Chieseo Times Record.

He Was Cutting the Grass.

Iohnes' house is so situated that his back yard is completely hemmed in by the back yards of neighbors with whom he is upon spenking terms.

As Johnes is one of the most sociable fellows in the world, he rather likes this arrangement, and from his hammock he every pleasant evening carries on a lively conversation with these neighbors to the satisfaction of all concerned.

But it has its inconvenient side, as Johnes realized the other sight, when,

grass. Smith was the first neighbor to discover Johnes at work, and he opened the ball with: "Ah, there, old man, cutting the grass, eh?"

Johnes allowed that he was cutting

Johnes allowed that he was cutting grass, and incidentally remarked that unless Smith called his pet cat over into its own yard the chances were good for puss finishing her existence on wooden legs. That cat came back.

Then Johnson came out, filled his pipe, strolled up to the fence and inquired:

"What are you up to now, Johnes; cutting your grass?"

Johnes replied that it ought to be evident to a man possessed of good eyesight that he was doing something of the kind.

"Well, there's no use getting uppish about it, is there?" queried Johnson.

Before Johnes could reply Neighbor Allen had come upon the scene.

"Well, well, well, said he, "I'm glad to see you working. Cutting the grass, eh?"

"No, sir," shouted Johnes, "I'm whitewashing the fence a deep crimson," and throwing the sickle into the middle of a bed of pansies that his wife had set out that afternoon, he walked into the house.

The neighbors looked at each other in astonishment for a moment, and then there came to them upon the evening air the melody, as jerkily played upon the piane with one finger, "There Are Moments Whom One Wants to Be Alone."
